**Erasmus+**

Monday 9th November

This is the best group photo

**Day's impressions. What do you like and what did not like?**

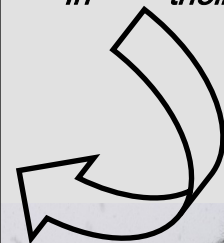

*A great experience! We received a very warm welcome especially from the kids with special needs. We found the group of the Villa Pouca de Aguiar schools well organised and full of modern equipment, which can fulfill all the students' needs. The Pedras Salgadas' school made us the best impression. We found the Portuguese presentation interesting and funny. We loved the song and the choreography of "Hey Mr. Policeman".*

*In the afternoon we tasted the local cuisine cooked by the students' parents and had a great time eating and dancing all together!*

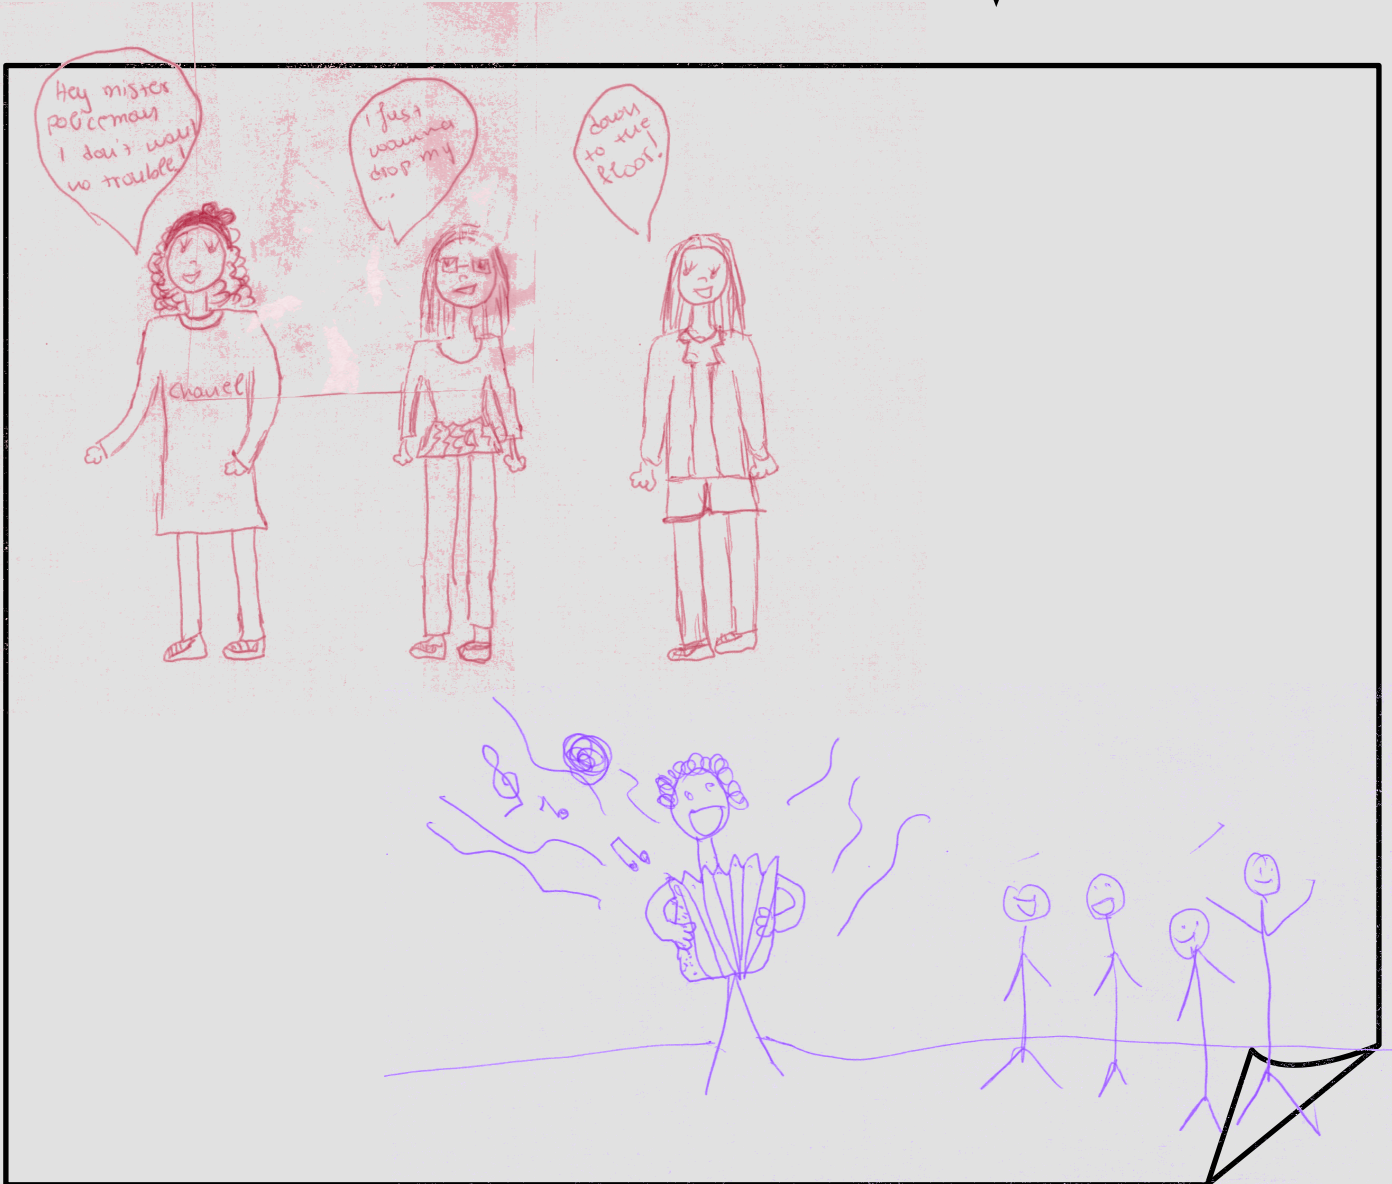

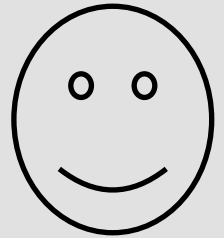

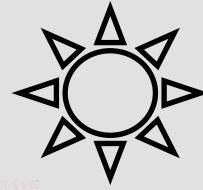

Photo with the students

In their classroom

*“The portuguese presentation” and  
“Dancing all together”*

**Tuesday 10th november**

*Collecting chestnuts in the forest near the mines*

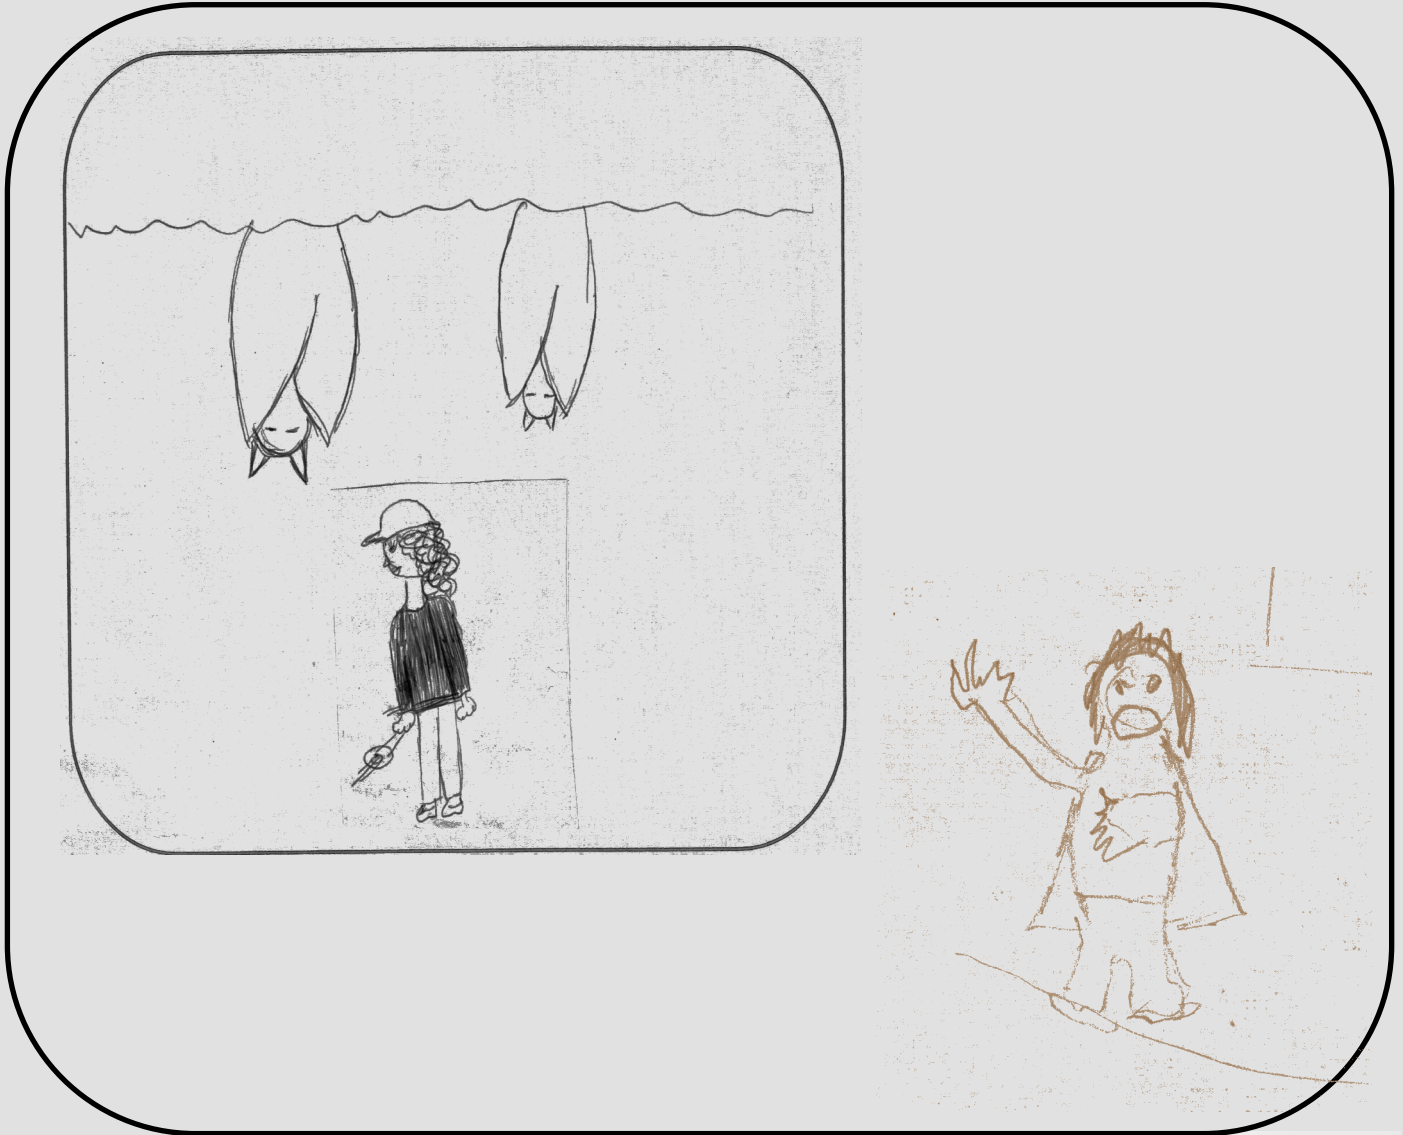

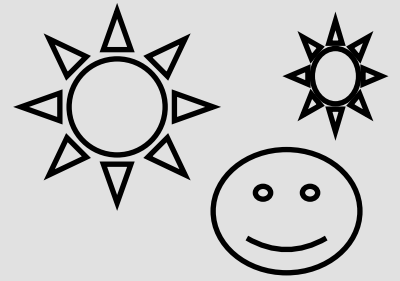

**How did you like this day?**

*A fantastic day full of experiences!*

*We had great time learning by the Turkish team how to make marble paintings. We found the visit to the old roman Tresminas mines interesting and adventurous especially when we saw the black bats sleeping! We had fun walking into the forest and collecting chestnuts. We watched a small theatrical play and laughed with the golden bad man who realised the real values of life. At last the special dinner in the traditional village gave us the opportunity to know each other better and start making friends.*

*In the mine while the “vampire” bats are sleeping! And ... who else? The gold—man!!!*

Wednesday 11th November

*The  
Greek  
presentation*

**What are your thoughts on this day?**

*Another great day! Our presentations' day! We felt satisfied and very proud of what we had prepared. We all acted as a "chorus"! We also participated to the Lithuanian presentation playing traditional games.*

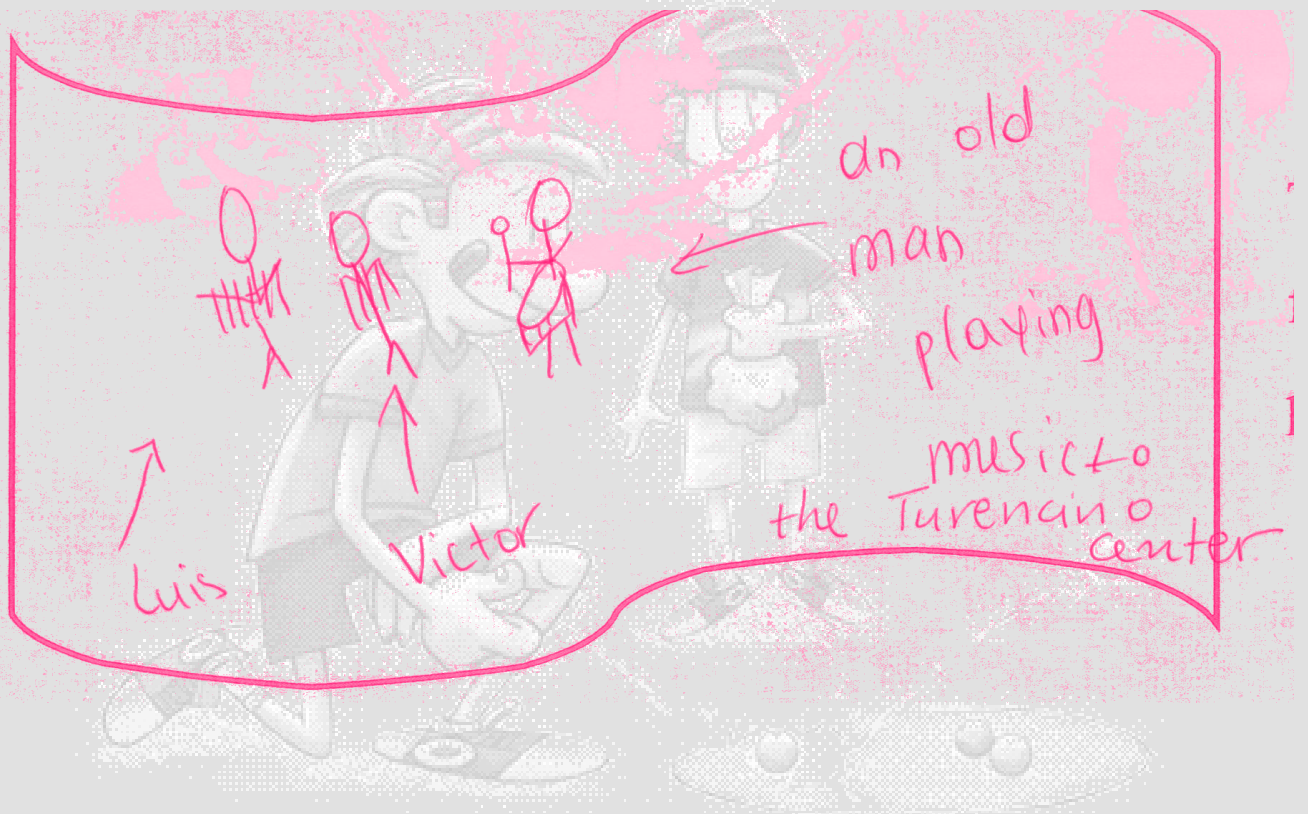

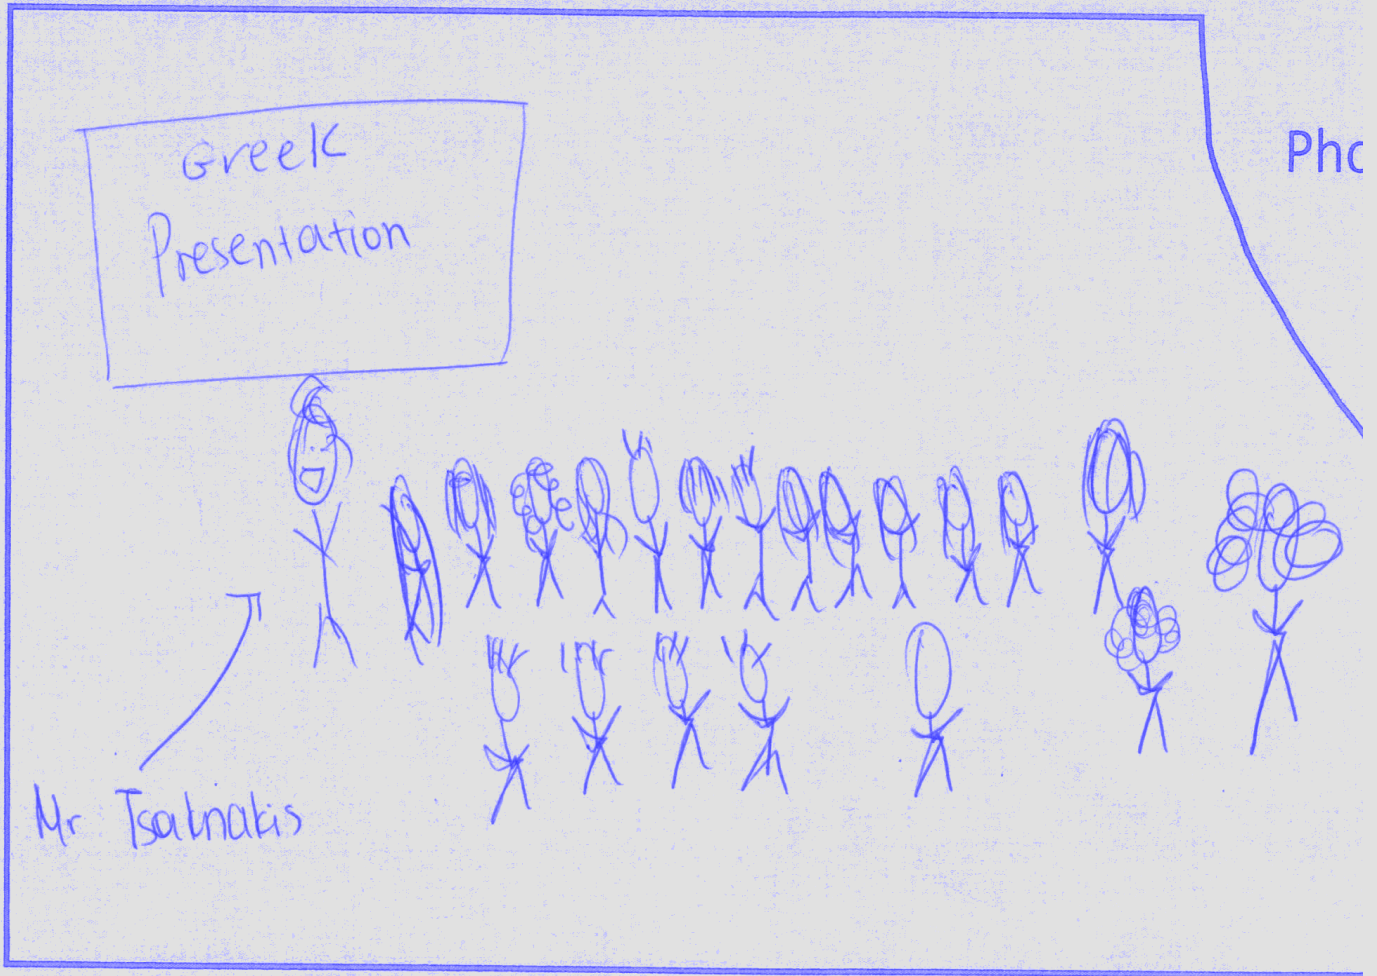

*Later we went to the local gym center and had the opportunity to practice all together many kinds of different sport activities! Emotions of strong relationship and friendship between the students started to be created.*

*In the afternoon we experienced some unexpected and emotional hours after visiting the Tourencino center. We danced and sang and had beautiful moments with the old people living there. Life can always be interesting.*

*All groups while  
learning how to  
dance "hasapiko"*

**The Greek presentation and a picture of the Tourenceno center**

Thursday 12th November

*Photo of  
Porto*

**How did you like this day?**

*An unforgettable day!*

*We visited Porto, a very beautiful city with history and culture. We had much fun to the Museum of World Discoveries. We even had a boat ride in the Doro River! We loved everything there! But ... we didn't have enough time to walk around the streets, to drink a juice and buy souvenirs for our friends.*

***During the cruise!***

## Notes for our friends from diferente countries

*"We have learnt many interesting things through the different presentations. We had the chance to see other countries civilization and culture. "*

*"All kids were friendly and polite".*

*"We had a lot of fun knowing each other. We danced and sang together. We are in the same photos as one team. We have even changed flags!"*

*"We discovered we have a lot of things in common. Sometimes maybe the same problems with our studies or with our parents!"*

*"We realized how important is to learn foreign languages. Students who didn't speak English couldn't communicate with the whole Erasmus team, but only with their own schoolfellows. "*

*"Marianna, Anna and Johanna are my Portuguese little friends I shall never forget. They are my best memory!"*

**Friday 13th**

**To the Pinhao railway station**

**How did you like this day?**

*The visit to the Doro museum and the wine cellars, the lunch at the village with the panoramic view, the beautiful and touching goodbye ceremony, all these activities, without exception, were the last sweet taste of Portugal.*

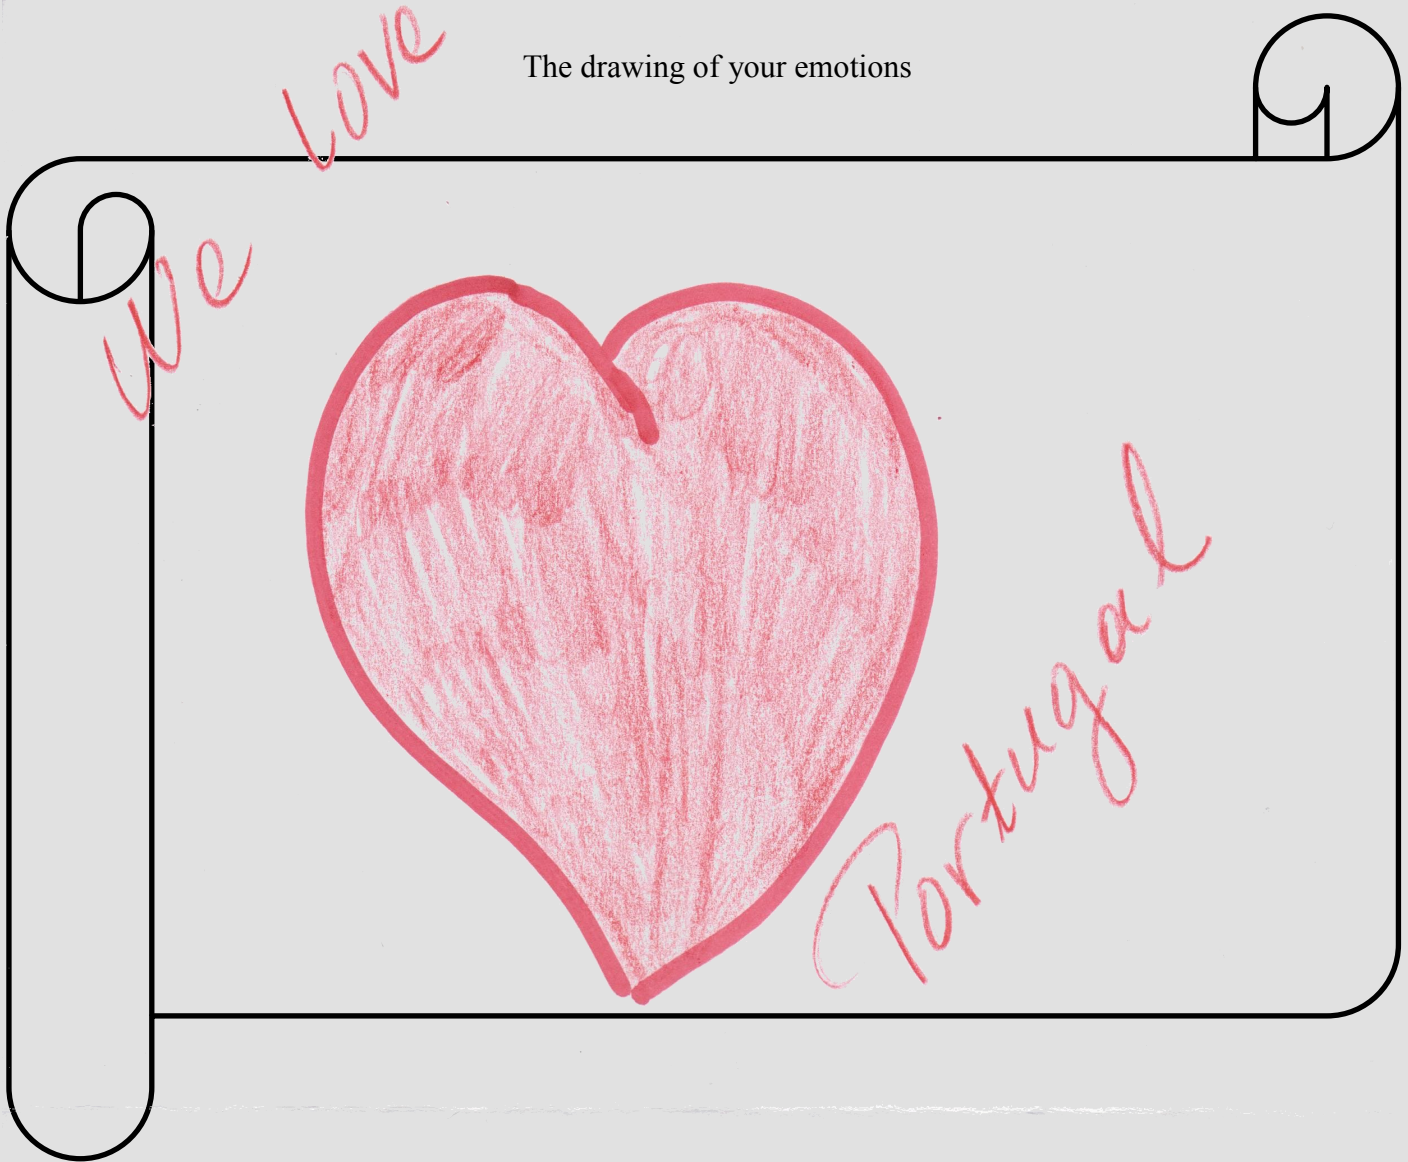

*Our favorite moment was at the end of the celebration, when we all danced together like a “chorus” !*

## **GOOD BYE PORTUGAL**

**Overall impressions of the meeting**

*The whole experience was amazing. We almost loved everything. The portuguese teachers were very kind, patient and cheerful. We would like to visit Portugal again. We felt we had only a small taste of a beautiful country with interesting and optimistic people!*

The drawing of your emotions

## GOOD BYE PORTUGAL

Overall impressions of the meeting

*We made new friends. We learnt interesting things. We had interactive history lessons. We got new ideas. We realised once more the value of cooperation and dialogue between different cultures. Students and teachers, parents and kids have the same needs all over the world. Our friends, the Portuguese, managed to make that clear to all of us once more!*

*We hope we will all keep in touch through e - mails and facebook.*

*Thank you Portugal for this excellent meeting!*

**GOOD BYE**
